### **COURSE CRITIQUES FROM PREVIOUS ATTENDEES:**

- *“The presentation, as well as the printed materials are of high quality and well laid out. I thoroughly enjoyed it and learned a lot about the underlying law and legal considerations. Jeff’s skillful presentation certainly made it most enjoyable. These were two days well spent.”*
- *“Thanks very much for a very interesting and informative two days. Since I have not been involved with arbitrations for about twenty-five years, I found the course extremely useful, both to see how much I had forgotten as well as to learn how much has changed in the meantime. It was gratifying to sit with such informed, interested and experienced fellow students...”*
- *I would also like to express my thanks and high praises to the SMA. Not only did I find the two-day course very informative, but the additional comments provided by my fellow students active in shipping in general made it all very realistic. For someone new in the industry, it was a very valuable learning experience.”*

### **WHO SHOULD ATTEND:**

This course will be especially valuable to professionals in the shipping business who are users of the maritime arbitration process. Attendees from shipowners, chartered vessel operators, maritime claims adjusters, insurers, traders and export/import companies should find the course an efficient way to gain an understanding of the current practices in New York maritime arbitration proceedings.

The course will also be uniquely beneficial to newly admitted maritime attorneys or lawyers with less than two years practice experience or those seeking a more comprehensive understanding of the process.
